Yan's SHOP

I just name my store with my name as
I always can not think of something else
to represent myself other than my name.
It is just the easiest way lol

On the Shelves

Art Supplies

Drawing has been something
I continued to do since
I'm very little

Bakery

I fell into bakery after watching
an anime about dessert and sweet
in which I will try out making
different kinds of dessert
with my mom

Equestrian Supplies

The animation movie Spirit
really drove me into the love
in horses as I started to ride
by myself at age of 9.

Trips & Traveling Supplies

Vtuber

I started to watch various Japanese
vtuber this year which really inspired
me to learn more about the
Japanese language. It is really
motivating as I found myself
being able to understand more and more
Japanese by just watching streams.

Location

I have lived in different culture
and I really can not decide on one
place that I have to live on for my entire
life so I just decide to open my store on a truck
so that I can go to different place according to my mood

Customer

People that are patient enough
to get to find this store

Motto I don't know where to go but I am on my way
